

Industry

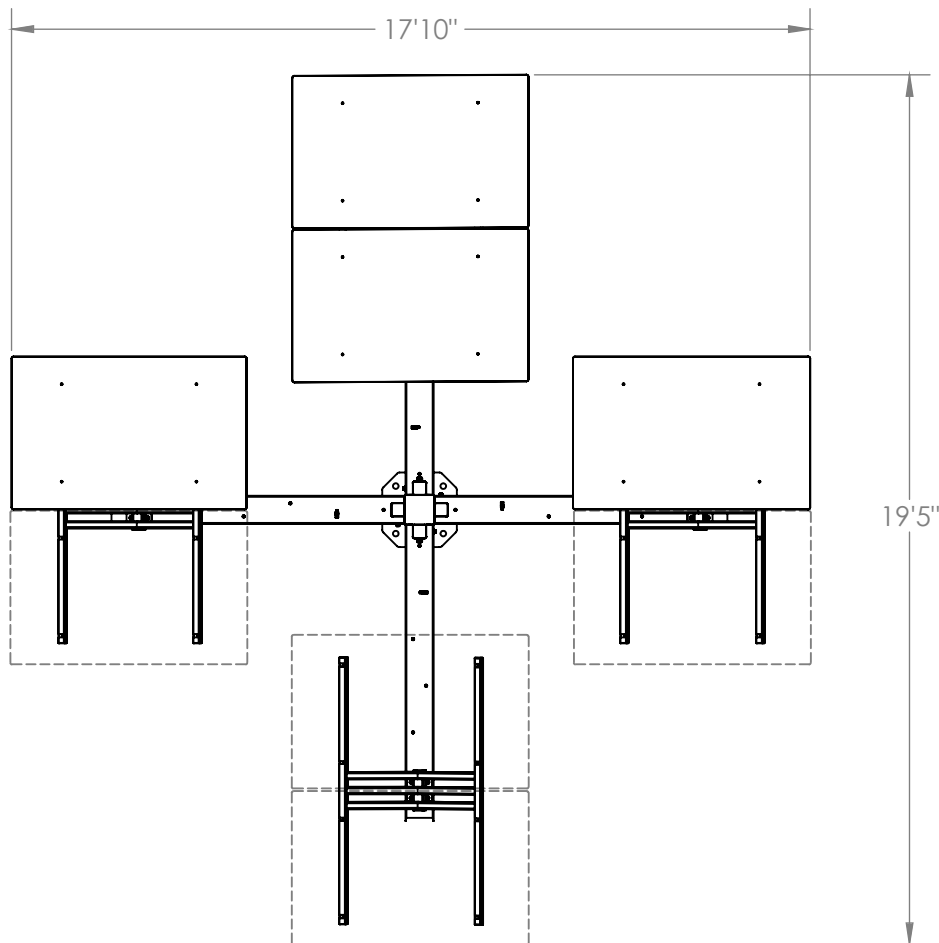

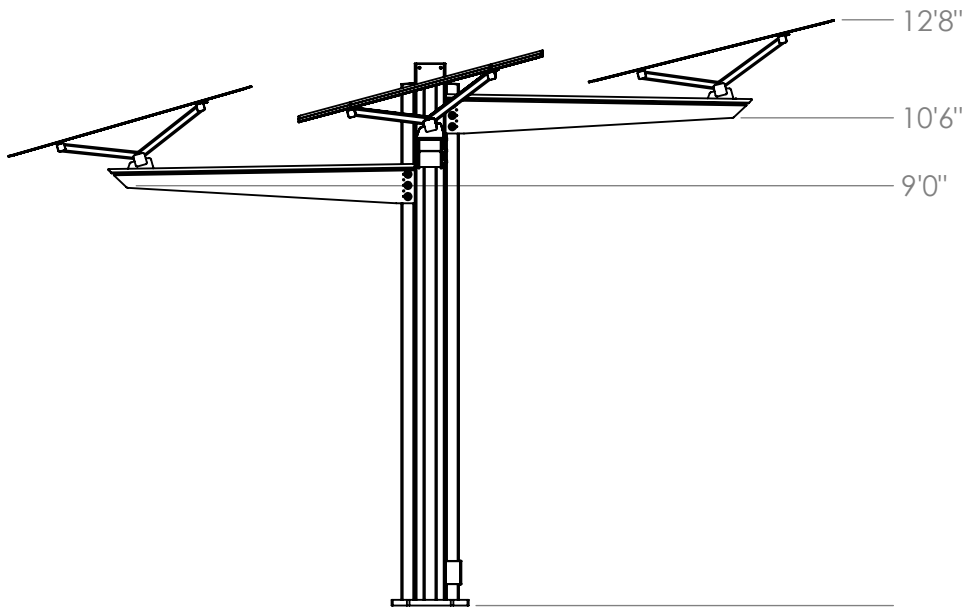

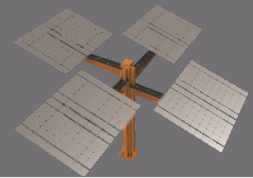

Make a Solar Statement

Industry by Spotlight Solar makes environmental stewardship visible and touchable. Designed to complement other green building investments, it represents all the beneficial things you do. By putting solar front and center, you'll distinguish your property and shine a light on clean energy.

Industry is designed to suit a range of architectural styles and bring elegant solar technology into the landscape. Industry is highly flexible: choose from three or four arms, orient the solar arrays, and add accessories like lighting, power outlets and signs. Even select your favorite color. As people stand in the shade of solar energy, they will appreciate what you've done.

Specifications	
Warranty	10 year limited warranty
Maximum height	12' 8"
Total weight	1,125 lbs. (ships in pieces)
Wind load rating	140 MPH
Material	Recycled steel
Finish	High performance coating, client's color choice

<p>Provided by Spotlight Solar: mounting structure, module attachment hardware, installation and orientation guidelines</p> <p>Provided by solar integrator: solar modules, inverter, wiring, foundation, electrical design, installation, permitting, site-specific engineering</p>	
Configuration	Product Number
3-arm (6 panels)	IND-103064
4-arm (8 panels)	IND-103084
Accessories	
Accent lighting on one arm	IND-110000
Standing height table with power outlets	IND-160000
Sign	IND-170000

Updated 9.17.2019

Spotlight Solar is up to something good.

Spotlight Solar is dedicated to making solar energy visible and attractive. We don't replace rooftop systems; we complement them. Our ambition is to promote the adoption of solar energy by making it more visible and engaging.
